**❄️ Physicist Playing Cards**

**Bet you've never played cards with Enrico Fermi (K♠),  
Wolfgang Pauli (Joker), or Lise Meitner (Q♥) before!  
These decks are filled with the faces of eminent  
physicists – historic and modern sets available.  
\$8 per deck.**

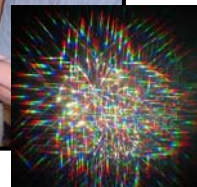

## ❄️ SPS "Rainbow" Glasses

The lenses in these glasses (modeled here by SPS council members) are diffraction gratings, with closely spaced lines in the horizontal and vertical directions – so light traveling through the lenses is split into its spectral components in both directions. These are great for teaching about the visible light spectrum and for watching fireworks! 1--\$2.00, 5--\$8:00, 20--\$30.00, 100--\$100.00

## ❄️ SPS Backpack

We know that between Griffiths, E&M homework, and No. 2 pencils you've got a lot to carry these days. Why not carry your stuff like this Council member, SPS-style? \$20
