

SPS Project Award Application for Sigma Pi Sigma

Submitted by: Mel Blake, University of North Alabama Chapter Adviser

Chapter: 4815

Narrative: The purpose of this application is to request funds to conduct a Sigma Pi Sigma induction ceremony at UNA. We have not had a very active SPS and Sigma Pi Sigma activities and have not had a honors society induction in about 4 years. We are trying to renew our club, and want to recognize deserving students. This year we will induct two new students into Sigma Pi Sigma. We plan to invite all our previous Sigma Pi Sigma inductees that we are able to contact to attend as well as the family and friends of the inductees. After the ceremony we will have a reception for people to congratulate the inductees and interact with the physics faculty, alumni and students. The purpose of this grant request is to fund the costs of the reception.

Budget:

Past induction ceremonies suggest that we will have approximately 15 – 20 people attend the induction, and so we budget for 20 guests. Our catering company on campus is Chartwells, and we use their online for to estimate costs. We show the website checkout for a proposed order from them for an order for 20 guests. In some cases we must use the minimum order for an item. The details of the final order may vary from this, but we request **\$400** for this grant request.
