

# View the Eclipse!

## SPS Science Outreach Catalyst Kit

Janessa Slone, SPS SOCK Intern

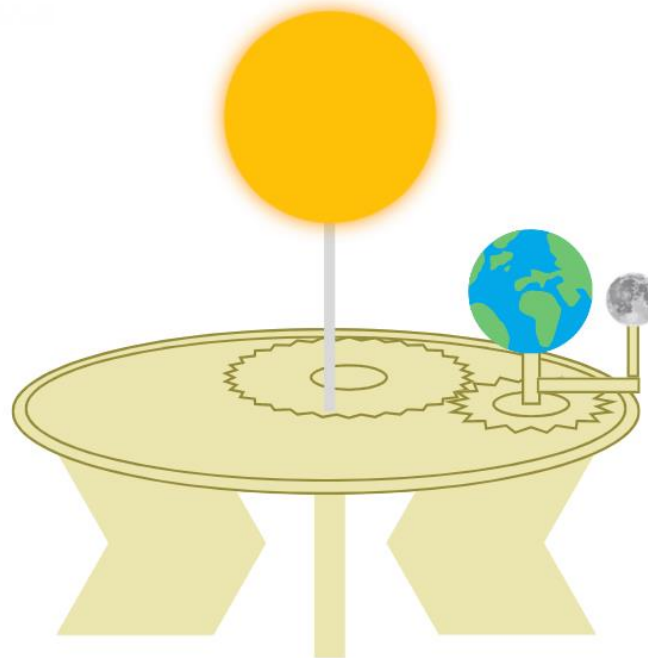

Here are some safe ways to view the next Solar Eclipse!

*Warning: Never look directly into the Sun, even during an eclipse. This is very dangerous and can result in permanent injury.*

### Pinhole Viewer

A DIY Pinhole Viewer is safe to use to view the Solar Eclipse! View the 2022 SOCK on the SPS National Website to learn how to make your own!

2022 SOCK Wooden  
Orbital Model

### Eclipse Glasses

These are convenient and a great way to view the eclipse. Order the 2022 SPS SOCK to get a pack of them!
