

A vertical photograph of the Space Shuttle Atlantis during its ascent. The shuttle is oriented vertically, with its nose pointing upwards. It is surrounded by a large, billowing plume of white smoke and fire, which is illuminated from below, giving it a golden-yellow glow. The background is a clear, deep blue sky. The shuttle's external tank and boosters are visible, along with the orbiter on top. The NASA logo is visible on the side of the orbiter.

We have a hunger of
the mind which asks for
knowledge of all around
us, and the more we
gain, the more is our
desire; the more we
see, the more we are
capable of seeing.

Question
everything.

Maria Mitchell
